

PERROTIS COLLEGE

Perrotis College, established by the American Farm School in Thessaloniki, provides students from a variety of countries with the practical experience, skills and knowledge they need in order to pursue a successful career or post-secondary study in agribusiness, agrotourism, agriculture, environmental protection and food marketing. Using English as the language of instruction, the College curriculum enables students to apply the theory they learn in the classroom to hands-on learning activities conducted on the campus farm and elsewhere. In addition, students gain actual work experience through two summer internships conducted on a variety of professional and industrial sites in Greece, the Balkans, Europe or the U.S.

Validated by the Cardiff Metropolitan University, Perrotis College's innovative post-secondary program offers accredited BSc (Hons) degrees in:

- **Food Science and Technology,**
- **International Business Management**
 - International Business Management
 - Marketing Management for the Food Industry
 - Agrotourism
- **Environmental Systems Management:**
 - Precision Agriculture
 - Urban Landscape & Xeriscape Technology
 - Livestock Management

Students have the opportunity to reside in well-organized dormitories where full boarding services are provided, and to participate in extracurricular activities throughout the academic year.

Those who complete a BSc (Hons) degree at Perrotis College are eligible to pursue postgraduate studies in the UK, Europe, the US and elsewhere. Credit for specific courses can also be transferred to any accredited higher education institution. Our Career Guidance Office provides support to graduates who wish to pursue a professional career in the private sector, to create their own business or to pursue graduate study.

As a branch of the American Farm School (a nonprofit philanthropic institution), Perrotis College offers financial aid packages that include scholarships to most of its students, as well as a work-study program.
