AGRICULTURAL TECHNOLOGY PROGRAM

The Agricultural Technology Program provides two years of education leading to an associate of agriculture degree. You will be prepared to meet the technical- and management-level demands of a diverse and rapidly changing agricultural industry.

FIND YOUR FOCUS

Agricultural Technology offers two degree options:

- **Applied agricultural management** – For individuals interested in livestock, crop production, and agribusiness.

- **Landscape and turf management** – For individuals interested in landscape design, contracting and management, golf course and sports field management, and horticulture production.
DEGREES

Associate of Agriculture
- Applied Agricultural Management
- Landscape and Turf Management

EXPLORE YOUR ROLE
through hands-on experience in:
- Designing and installing landscapes and hardscapes.
- Managing livestock production systems.
- Creating and analyzing business plans.
- Developing turfgrass management programs.
- Utilizing precision agriculture equipment.
- Implementing intensive grazing plans.
- Exploring career opportunities through internships.
