A major in dairy science (DASC) allows you to study and/or work with animals in such careers as veterinary medicine, dairy production, and laboratory or field research. Enjoy hands-on experiences, and jumpstart your career exploration. We offer exceptional faculty, advisers, and a family-like atmosphere that boasts 100 percent placement rate among graduating students.

FIND YOUR FOCUS

DASC offers are several degree options:

Dairy Business Management – Gain knowledge and training in dairy farm business management to optimize dairy cattle performance and well-being, utilize electronic data, manage farm finances and land resources, and implement environmental planning.

Animal Science/Pre-Vet – Prepare for advanced training for careers in animal research or veterinary medicine to improve animal and human nutrition, genetics, and biosecurity.

Dual Emphasis – Combine your interest in dairy science with a companion major in such areas as agribusiness, agricultural education, communications, and livestock management.

Career possibilities include herd manager, farm manager, nutritional consultant, dairy inspector, artificial inseminator, field representative, and more.
